ABOUT ME

I am a skilled and adaptable professional with a diverse background encompassing water and wastewater management, project management, and web development. My journey from managing construction projects and AutoCAD in the water and wastewater industry to developing responsive Websites and Application demonstrates my adaptability and commitment to continuous learning. I hold a Bachelor of Science in Information Technology and have honed my web development skills through training at REDI School of Digital Integration and Udemy - Web Development Bootcamp.

With a strong foundation in project management, problem-solving, and team collaboration, I bring a unique perspective to web development. I specialize in HTML, CSS, JavaScript, and the MERN stack (ReactJS, ExpressJS, MongoDB), and am passionate about creating engaging, user-friendly, and scalable web applications. My technical knowledge and problem-solving abilities have been instrumental in delivering successful project outcomes.

I am dedicated to staying current with the latest web development trends and best practices, and I am eager to bring my diverse skill set, attention to detail, and dedication to continuous learning to dynamic web development teams. I look forward to contributing to innovative and effective solutions that drive digital transformation.

KEY COMPETENCIES

- **Web Development:**
 - Proficient in HTML, CSS, JavaScript
 - Trained in the MERN stack (ReactJS, ExpressJS, MongoDB) through REDI School and self-study
 - Skilled in creating scalable and maintainable web applications
 - Additional training from Udemy - Web Development Bootcamp
- **Project Management:**
 - Background in managing construction projects in the water and wastewater industry
 - Strong problem-solving and team collaboration skills
 - Effective project delivery and outcomes
- **Technical Skills:**
 - Strong foundation in information technology (Bachelor of Science in Information Technology)
 - Proficient AutoCAD operator
- **Adaptability:**
 - Transitioned successfully from project management to web development
 - Committed to continuous learning and staying current with industry trends
- **User Experience:**
 - Passionate about creating engaging and user-friendly web experiences
 - Attention to detail and dedication to best practices in web development
- **Soft Skills:**
 - Strong communication and interpersonal skills
 - Effective team player with a collaborative mindset
